-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Continued Prosecution Application

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/4/2009 has been entered.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1 and 3-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over by The Japanese Publication No. 07-232770 to Shigeta in view of Gillani (6,948,616). Shigeta discloses a container/package (see Figures 1b & 1c) having printed image that can be seen as stereogram (see the title and Figures 1-2) comprising at least first and second images (2L, 2R) disposed on the package configured to be observed as a stereogram/three-dimensional image via parallel method or intersection method (see CONSTITUTION) when observed as a pair. The first image (2L) is disposed on a first surface of at least two surfaces of the package and the second image (2R) is disposed on a second surface of the package. Shigeta also discloses the other claimed limitations except for the package is a parallelepiped.

Gillani shows a parallelepiped package (1) comprising a first surface (3) having a first image (7) and a second surface (20) having a second image (7; Figures 1 & 3). It would have been obvious to one having ordinary skill in the art at the time the invention was made in view of Gillani to modify the package of Shigeta so the package comprises a parallelepiped to allow the package for holding various types of merchandise and because a change in form or shape is generally recognized as being within the level of ordinary skill in the art, absent any showing of unexpected results. In re Dailey et al., 149 USPQ 47.

As to claim 3, Shigeta discloses a first package and a second package having a same structure as the first package (Figures 1b & 1c).

As to claim 4, the package of Shigeta as modified comprises a hexahedron having six surfaces.

As to claim 6, Gillani shows at least one of the first and second images (7) has a point symmetry shape and a center of the at least one of the first and second images is displaced from a center point of the outside surface of the package.

Response to Arguments

Applicant's arguments with respect to 4/13/2009 have been considered but are deemed to be moot in view of the new grounds of rejection.

Conclusion
